## Education

**Maharaja Agrasen Institute of Technology, GGSIPU**

Expected Graduation Year: 2025

**Bachelor of Technology in Computer Science and Engineering**

**GPA: 8.377/10**

**Relevant Courses:** Operating Systems, Computer Networks, Software Engineering, Data Algorithms and Analysis, Object Oriented Programming, Database Management, Python Programming, MERN Stack, AI(Artificial Intelligence).

## Experience

**Web Development Internship**

Nov. 2023 - January. 2024

**@ INTRAINZ INNOVATION**

HTML, CSS, JavaScript, Bootstrap, Project Management

- Developed a Learning Management System (LMS) portal as part of a four-person team. Implemented features such as: Enrolled students can watch modules, complete quizzes, and receive automated grading.
- Maintained client-side Authentication Page to ensure secured login and logout.
- Enhanced website user experience through optimization efforts such as: Logical information hierarchy, use of images and videos to enhance content, easy to find buttons.

## Skills

**Languages:** C++, JavaScript, SQL(MySQL/PostgreSQL), HTML/CSS

**Frameworks:** ReactJs, NodeJs, ExpressJs, NextJs, Tailwind CSS, Bootstrap, SCSS, Jest

**Developer Tools:** Git-Github, Docker, Canva, PostMan, Firebase, Notion, Vercel, VS Code, npm, Babel

## Projects

**My Portfolio (NextJs Website)**

*Repository Link*

JavaScript, NextJs, Tailwind CSS, Shadcn/ui, Framer Motion, Vercel

- Constructed a NextJs-based portfolio website which serves as a digital showcase of my computer science projects and expertise. Used **Framer Motion** to create complex and engaging animations and interactions.
- To ensure a visually compelling and responsive design across various devices, I used **Tailwind CSS** and pre-built components offered by **shadcn/ui**.

**GetHired (MERN Website)**

*Repository Link*

JavaScript, ReactJs, NodeJs, ExpressJs, MongoDB, Tailwind CSS, FireBase

- Built a completely working job portal using MERN (MongoDB, Express, React, Node.js) and Tailwind CSS. This platform offers a wide range of features designed to make job searching and posting easier.
- Users can effortlessly find jobs by using advanced search filters to narrow down results based on various criteria.
- Recruiters can easily post new job openings, manage existing job listings, and update job details as needed.
- Also integrated secure authentication system using **Firestore Authentication**. The entire platform is optimized for mobile devices, providing a seamless experience for users on the go.

**Resume Builder (React Website)**

*Repository Link*

JavaScript, ReactJs, HTML, CSS Modules

- Created an online tool to help people build professional resumes quickly and easily.
- The platform offers customization options to make resume according to individual needs and preferences. Once finished, users can instantly download their resume as a polished PDF document.

## Training

**Front End Web-Development**

June. 2024 - August. 2024

**IBM SkillsBuild**

JavaScript, ReactJs, Testing and Deployment, Project Management

- Gained front-end development expertise through a structured training program encompassing 13 in-depth project-based modules. Successfully applied acquired skills to multiple front-end projects, demonstrating proficiency and problem-solving abilities under evaluation.

## Positions of Responsibility

**Event Handler - Tech Vision Alliance (TVA):** Successfully led and executed two web development focused events.
